

**ALABAMA VEGETATION  
MANAGEMENT SOCIETY, Inc.**

TO: All Supporters of the Alabama Vegetation Management Society

Dear Friends:

AVMS is a statewide educational, **non-profit organization** dedicated to providing expert advice and solutions for integrated roadside vegetation management.

We accomplish this by networking national, state, county, city, university, professional and private industry personnel, all pooling their knowledge and sharing their successes to aid us in providing helpful information to anyone with the responsibility of vegetation management in Alabama.

Understanding that the sharing of knowledge is the building block for all we do AVMS has created a Scholarship Fund, funded in part by a silent auction held each year at our annual meeting. We encourage all meeting attendees to come with their checkbook in hand. You will find excellent merchandise offered and the proceeds will go to a good cause.

Thank you.
